PROFILE

I am a problem solver, with a thought process focused on attention to detail. I am capable of solving complex tasks.

I always work on improving my technical skills, which is why I invest constantly in new courses and do personal projects, in order to get better at what I do.

Honoring my promises always takes priority!

EXPERIENCE

OSF DIGITAL

2020 - present

Intermediate Fullstack Web Developer (+3 years of experience)

I currently do backend development with **NodeJS** and **Typescript** **PostgreSQL**, **Apollo** and **GraphQL**.

I am involved with all aspects pertaining to the server side development of the application.

OSF DIGITAL

2019 - 2020

Intermediate Fullstack Web Developer (+3 years of experience)

I did **fullstack .Net Core** development, with **Angular** for the UI components.

I dealt with high data volume processing and modifications on existing financial systems software, and also with **consulting** on 3 existing systems, with thousands of customers using them.

OSF DIGITAL

2017 - 2019

Junior Web Developer(+2 years of experience)

I did **NodeJS** backend application development, with **Twilio** and **Mailgun** integrations, and also payment systems integration with **Stripe** (custom gift cards flows, complex payment flows, payment flow log setup on Stripe), **statistics** automation and various **optimizations**.

Did planning according to the requirements I got from the customer, in order to meet the required deadlines.

2016 - 2017

Junior Web Developer

I did **C# WPF** desktop application development and OpenGL ES application design.

Worked with **video and audio codecs for embedded systems** and have an understanding of how the OpenGL pipeline works.

Technologies

Intermediate
(1.2 years of experience)

- Rest API development
- Microservices
- Push notifications
- 3rd party services integration (Stripe, Mailgun, Twilio, SendGrid)

Beginner
(0.5 years of experience)

- Rest API development
- Project maintenance
- 3rd party service integration (SendGrid)

Beginner
(0.5 years of experience)

- .csv and .xlsx file parsing and generation
- Responsive single page web applications

Beginner
(1.2 years of experience)

- CRUD operations
- Scripting, setting up the project structure

Intermediate
(1.2 years of experience)

- Complex payments flow
- Setting up flows within the platform for easy debugging

Intermediate
(1 year of experience)

- Basic documentation
- Use of Hexo and Madoko to generate static

Beginner
(0.7 years of experience)

- CRUD operations

Beginner
(0.5 years of experience)

- CRUD operations
- Basics of stored procedures

Beginner
(0.5 years of experience)

- Integration within backend applications
- Responsive email templates

Beginner
(0.5 years of experience)

- Integration within backend applications
- Responsive email templates

Beginner
(0.5 years of experience)

- Integration within backend applications
