PROFILE

I am a problem solver, with a thought process focused on attention to detail. I am capable of solving complex tasks.

I always work on improving my technical skills, which is why I invest constantly in new courses and do personal projects, in order to get better at what I do.

Honoring my promises always takes priority! Respecting deadlines is a must for me.

EXPERIENCE

OSF Global Services
2020 - Current

Intermediate Fullstack Web Developer (+3 years of experience)

I currently do fullstack .Net Core development using Angular for the UI components.

I deal with high data volume processing and modifications on existing financial systems software, and also with consulting on 3 existing systems, with thousands of customers using them.

OSF Global Services
2017 - 2020

Junior Web Developer(+2 years of experience)

I did NodeJS backend application development, with Twilio and Mailgun integrations, and also payment systems integration with Stripe (custom gift cards flows, complex payment flows, payment flow log setup on Stripe), statistics automation and various optimizations.

Did planning according to the requirements I got from the customer, in order to meet the required deadlines.

Silicon Service
2016 - 2017

Junior Web Developer

I did C# WPF desktop application development and OpenGL ES application design.

Worked with video and audio codecs for embedded systems and have an understanding of how the OpenGL pipeline works.

EDUCATION

University of "Stefan cel Mare" Suceava

2013 > 2017

Bachelor in Automatics and Applied Computer Science

My thesis was an interactive advertising system, based on Kinect interactions via gestures.

Also did several projects for embedded competitions and hackathons :

- computer control with haptic feedback

- smart electric car

- digital press kiosk, with interaction based on vocal and gesture recognition with Kinect

My top 5 qualities

Well organized and methodical about everything in my life

Tenacious about everything I do

Constant in my actions

Empathic

Loyal

Hobbies

3D modelling and stress simulation with Solidworks

Reading psychology, technical, historical literature

Running and going on walks

Writing short stories

Listening to music

Technologies

NodeJS - Intermediate
(1.2 years of experience)

- Rest API development
- Microservices
- Push notifications
- 3rd party services integration (Stripe, Mailgun, Twilio, SendGrid)

.Net Core - Beginner
(0.5 years of experience)

- Rest API development
- Project maintenance
- 3rd party service integration (SendGrid)

Angular - Beginner
(0.5 years of experience)

- .csv and .xlsx file parsing and generation
- Responsive single page web applications

MongoDB - Beginner
(1.2 years of experience)

- CRUD operations
- Scripting, setting up the project structure

Stripe - Intermediate
(1.2 years of experience)

- Complex payments flow
- Setting up flows within the platform for easy debugging
- Knowhow regarding total overall costs on complex flows

MySQL - Beginner
(0.7 years of experience)

- CRUD operations

SqlServer - Beginner
(0.5 years of experience)

- CRUD operations
- Basics of stored procedures

Markdown - Intermediate
(1 year of experience)

- Basic documentation
- Use of Hexo and Madoko to generate static websites

SendGrid - Beginner
(0.5 years of experience)

- Integration within backend applications
- Responsive email templates

SendGrid - Beginner
(0.5 years of experience)

- Integration within backend applications
- Responsive email templates

Twilio - Beginner
(0.5 years of experience)

- Integration within backend applications

Git - Beginner
(1.5 years of experience)

- Usual operations for using the protocol
- Basic CI/CD setup
- Worked with GitHub and BitBucket

Languages

Romanian
Mother tongue

English
Fluent

Italian
Beginner-medium
